SEATTLE—Secretary Corbaley of the Seattle Chamber of Commerce has tendered his resignation.

BOSTON—Several of the big dailies of New England did not issue this morning. It is understood that their non-appearance will be explained in tomorrow's issue as an All Fools' Day prank. The paper situation has become so desperate that newspapers are quick to seize upon any plan of action that affords the slightest semblance of an excuse for missing an issue.

Mysterious Girl Arrested at Head of Bay Last Night

Was Living Alone In a
Deserted Gas Boat

U. S. Deputy Marshal H. J. Wallace last night arrested a 16-year-old girl at the head of the bay on a charge of vagrancy. The girl had been seen in that locality a number of times lately, but she successfully evaded anyone who attempted to approach her. The matter was reported to the officers and a citizen was detailed to watch for the girl in order to learn where she was living. It was finally discovered that she was staying in a deserted gas boat. The gas boat was watched for several nights in order to learn if the girl was alone. No one but the girl was ever seen to enter or leave the boat and she would venture out only when there was no one in sight. No smoke was ever seen to come from the boat and there was no light at night. Once she was seen to fill a quart milk bottle with water near Schaffner's residence.

On both Saturday and Sunday nights officers knocked at the entrance to the boat but received no response. They then tried the door but found it heavily bolted. Last night H. J. Wallace, Earl West and Tom Dalgity made a trip to the head of the bay for the purpose of further investigation. Dalgity was pussyfooting near the boat when the girl came out with her milk bottle and went up the beach a few paces to fill the bottle with fresh water. Dalgity quietly slipped into the boat and bolted the door. As the girl returned to the boat Wallace and West closed in on her and made the arrest. The boat was searched but no clue was found. There was only a very limited quantity of old bedding that evidently belonged to the boat, and there was apparently nothing on the boat that the girl had brought with her. She was questioned as to her name and where she came from, but refused to answer.

This afternoon the girl was arraigned before U. S. Commissioner Wm. G. Thomas under the name of Jane Doe. Judge Thomas treated the girl most kindly and urged her to tell her name. She took from her clothes an empty envelope addressed "Miss May Furst, Petersburg, Alaska" and handed it to the Judge. The postmark was Franklin, Louisiana. The address was typewritten. Judge Thomas asked her if that was her name and she nodded her head, but her manner was that of one who was lying. The Judge told her that it was very important that she give her right name, and that she could save herself much trouble by so doing. She then declared that her surname was Furst but admitted that May was not her first name and that her full name instead of being May Furst was April First.

Don't fail to register.

Conditions In Germany Getting Worse Daily

Socialists Issue Ultimatum
That General Strike Will
Follow Unless Military
Measures are Suspended

BERLIN—The leaders of the three Socialist parties yesterday (Wednesday) afternoon sent an ultimatum to the government requesting that it respect the Bielefeld convention and immediately suspend all military measures in the Ruhr valley. The government is given until 3 o'clock this afternoon to accept or reject this request. Should it be rejected an immediate proclamation of a general strike will follow, Chancellor Mueller was informed by the Socialist delegation.

WESEL—Government troops made a sortie southeast of the city, drove besieging workers' forces from their posts, and shelled their retreating columns.

PARIS—The German cabinet, headed by Premier Bauer, resigned, according to a message received at Berlin today.

PARIS—Absolute confirmation of the entrance of the regular army troops into the Ruhr district, allied zone occupation, without permission from the allies was received by the foreign office.

High School Girls of Hydaburg Forbidden to Wear Silk Stockings

Order Is Made Because Thin
Stockings Are Believed to
Be Conducive of Colds

(New Native)

The wearing of silk stockings by girl students at Shortridge High School here, will be prohibited, according to an edict of George Buck, principal of the school. Mr. Buck said the ruling followed suggestions that thin stockings were conducive of colds, and that the order would be enforced during the influenza epidemic.

On Wednesday evening a community sing was held at the U.S. school. It being St. Patrick's day, the program took that feature. Mayor Davis told some racy stories. Mrs. Webb explained the history of the day, while others read and told Irish jokes. A good crowd turned out and the meeting was much enjoyed. A little dancing followed in the town hall.

Mr. Hibbs came down on the Perseverance for a load of lumber. Mr. Maloney, his brother-in-law, accompanied him.

The new store building looms up as a modern structure. It is substantially built, and resting as it does on bedrock, reveals the new native spirit of lasting progress. Its massive appearance represents the co-operative mind in action. There is nothing temporary about it. The needs of the rising generation with the possibility of an influx of scattered Hydah people has been kept in mind. The building is now painted. The shingles will be stained green while the sides will be in dark brown stain with white trimmings to conform to the general color scheme of the company's property.

The month of February gave us clear, sunshiny weather and still continues. Before Christmas we always look for regular "Southeasters." Now we can look forward to better weather all the time. This fact is evidenced in the people toward home, business and village improvement. Buildings are going up, houses are being painted, yards cleaned, women and children are donning their new spring fabrics. Personal and village pride are in the ascendant.

G. W. Longley who has been at Juneau and Ketchikan for the past few weeks is in Wrangell this week.

Of Interest to Trappers

William H. Bitters came in from the trapping grounds the first of the week with a nice collection of mink which he sold to G. H. Tozier.

Captain Walter Waters of Wrangell filled his mink bag on his last trip here. He also purchased a very choice black wolf pelt caught by Link Isaacs.—Hydaburg New Native.

The cancelling of the annual fair this year has enabled the Native fur trappers to stay out for a longer period than usual this year.—Hydaburg New Native.

William Clark returned last week from a trapping trip with a lynx, a wolverine, three cross foxes and a number of mink and ermine.—McCarthy News.

The Hoonah Fox company have received from Seattle a 48 foot gas boat, which has been christened Furrier, and will be used in connection with the business of the fox ranch.

Two pairs of blue foxes, yearlings, arrived on the Admiral Watson lately from the westward for Charles Christenson of Seward. Each fox is worth \$250 and when they grow up will be worth considerable more. The foxes will be shipped down to Fox Island.—Valdez Miner.

NOME—Three Eskimo trappers arrived here Sunday over shore ice and report that they had drifted 15 days on a large ice cake out of sight of land. The trappers suffered terribly from the bitter cold and lack of food. The ice cake they were camped on near the Yukon was carried out to sea by a severe gale.

The Yukon Silver Black Fox company and the Northern Fox Ranch, Limited, of Dawson, both owned by Dawson capital and two of the most successful fox farms of the Yukon recently killed their surplus stock. The former company killed eight beautiful silver foxes and sold the pelts for a sum running into four figures, while the latter company killed eight silver grey, six cross and four red foxes.

Muskkrat hides used in making the so-called "Hudson seal," are becoming so scarce that the market for rabbit fur has been stimulated in a marked degree. At a recent fur auction in New York the hides of domestic rabbits, such as Belgian hares and Flemish Giants, sold at a price increase of 80 per cent. Skins of these rabbits are slipped and dyed and made into "electric seal" or "sealine." Even wild rabbit skins, which are used by hatters, have increased in value 40 per cent.

At the public auction sale held at the International Fur Exchange in St. Louis, Mo., recently there were sold, for account of the United States government, 9,100 dressed, dyed and machined fur-seal skins from the take of 1918 on the Pribilof Islands of Alaska. The skins commanded the highest prices ever paid. One lot brought \$177 apiece and numerous lots sold for over \$170 each, the average being \$140.97 each. This was an advance of \$49 or about 55 per cent over the last sale in September, 1919. The aggregate amount of this sale was \$1,282,905.

Wm. Cathro, who recently bought out the interests of his partner, Captain P. Martin, in the Macrae fox farm near Whitehorse, killed off the 18 foxes with which the place was stocked and has placed the raw furs thus derived in the hands of Taylor, Drury, Pedlar & company to ship either to the New York, St. Louis, or London fur markets as they may deem best. Mr. Cathro has closed down the business for a time, and it is likely before he resumes will pay a long deferred visit to relatives in Scotland.

Mr. Cathro, who has studied fox ranching very closely during the last six years, states that his chief reason for killing at the present time is for complete renovation of

A GENERAL STRIKE THROUGHOUT DENMARK SEEMS INEVITABLE

COPENHAGEN—King Christian has announced his refusal to comply with the ultimatum of the social democrats who were demanding reinstatements of the Zapple ministry. Crowds in the public squares Tuesday morning were raising cries for the establishment of a Republican form of Government for Denmark.

COPENHAGEN—A general strike throughout Denmark seems inevitable today.

FIUME GETTING VERY TIRED OF DANNUNZIO

LONDON—Dannunzio has issued a manifesto deploring that his officers permitted the publication of leaflets urging a proclamation as a republic. A popular uprising is expected as the people of Fiume are tired of the arbitrary rule of Dannunzio who has imprisoned more than a thousand of his opponents.

These 18 skins are either silver black or silver grey, and the consignment is one of the handsomest and most valuable that has ever been shipped at one time from any of the numerous farms in the territory. One of the skins is a magnificent electric silver black, and it would be hard for anyone in Whitehorse to predict how much it will ultimately bring in the open market when put up for sale.—Star.

E. A. Rasmussen, president of the Bank of Alaska returned home from a business trip to the States having gone east as far as New York where he saw a number of the stockholders of his institution. Mr. Rasmussen had a rather exciting time on the steamer voyage. While his ship was in Wrangell he took advantage of the opportunity thus afforded of visiting the Bank of Alaska's branch at that port, and while in the bank the Princess pulled out and left him. The Spokane being in port and North bound he went aboard, and as the Mary was compelled to anchor in the Narrows while awaiting the turn of the tide, the Spokane overtook her there and he was taken on board the Mary in one of that ship's boats.

Native Girl Dies

Edith, the fourteen year daughter of Mr. and Mrs. Thomas Willis, died Monday night after a brief illness. Mr. and Mrs. Willis came here recently from Haines. Monday morning their daughter ate breakfast and seemed in her usual health. Soon after breakfast she complained of being sleepy and sank into a comatose condition from which she could not be aroused. Death came at midnight. Funeral services were held yesterday afternoon under the direction of the Catholic Church.

The Modern Priscilla will soon be increased to \$1.75 a year. For a short time a two year subscription may be had for \$2.50.

From present indications there are likely to be an unusual number of changes this year, as publishers advise that the price of paper and labor is increasing rapidly. We find, for example, that the cost of white paper, to mention only one item, has advanced 70% as compared with 1914.

You will be assured of the lowest prices obtainable and of quick, efficient service if you order your magazine through the Robert M. Edmunson Magazine Subscription Agency, Wrangell, Alaska.

"On top of the world—paying the top of the market"

In presenting the following quotations we want you to understand that we pay what we quote. If the market advances after the issuance of this circular we give the shipper the benefit of the increase. Upon request we shall be pleased to keep you advised of market changes.

We eliminate the middleman entirely as we buy direct from the trapper and trader and sell direct to the consumer, thus we are able to pay you a better price than you can get elsewhere. WE MAKE RETURNS THE SAME DAY SHIPMENT IS RECEIVED. If so desired when your shipments amount to \$100 or more, we will wire our bid and if not entirely satisfactory you may wire at our expense and we will ship to any place you designate. All we ask of you is to be fair with yourself as well as with us and make us a trial shipment; the result will make you a steady shipper. References: Any Bank in Alaska, the B. M. Behrens Bank, Juneau, the National Bank of Tacoma, Tacoma, Wash., Dexter Horton National Bank, Seattle, Wash.
